EDUCATION

Cornell University, College of Arts & Sciences, Ithaca, NY — Expected May 2030
Bachelor of Arts in Computer Science

Notre Dame High School, San Jose, CA — August 2022 - May 2026
GPA: 4.85 W/4.0 UW
Honors: Highest Academic Honors, CSF Lifetime Membership, AP Scholar with Distinction, NCWIT Bay Area Affiliate Honorable Mention

TECHNICAL SKILLS

Programming: Java, Python
Machine Learning and Data Analysis: Linear regression, data cleaning and statistical analysis, image classification, computer vision
Languages: English, Mandarin, Thai

TECHNICAL EXPERIENCE

University of California, Santa Cruz — June 2025 - August 2025
Economics Research Intern, Santa Cruz, CA

- Led data cleaning and analysis for an independent study of California's willful defiance suspension bans and their effect on teacher transfer rates.
- Applied linear regression and difference-in-differences analysis to find that the ban causally increased the number of teachers.
- Authored the findings in a peer-reviewed paper published in the Curiex Academic Journal.
- Presented methodology and findings to 50+ program staff and families

Chulalongkorn University — August 2024 - May 2025
Researcher, Bangkok, Thailand

- Self-taught deep learning methodology via Stanford's CS231n curriculum to independently build a computer vision model detecting pneumothorax and pneumonia from chest X-rays, under Professor Sira Sriwasdi.
- Delivered a model adopted for potential clinical use at Chulalongkorn Hospital.

FIRST Robotics Competition Team 1967 The Janksters, Notre Dame High School, San Jose August 2022 - August 2025
Scouting Lead, Programming Subgroup Lead

- Led the team's programming subgroup, coordinating software work for the competition robot.
- Directed scouting operations, collecting and organizing match performance data to inform competition strategy.

LEADERSHIP EXPERIENCE

Youth Finance Lab — January 2026 - Present
Founder and Executive Director, San Jose, CA

- Founded a financial literacy nonprofit; built and lead a 3-person executive team and volunteers across program, outreach, and operations.
- Designed curriculum delivered at 3 partner venues to 30+ students; launched a summer camp for 15+ students, with 90% reporting increased financial confidence.
- Selected to represent youth perspective on a public financial literacy panel, presenting the organization's mission and impact to 100+ community stakeholders.

STEM for Others — August 2024 - June 2025
Director of Recruitment, San Jose, CA

- Owned end-to-end recruitment strategy for a national youth STEM nonprofit; grew the volunteer pipeline to 100+ chapter presidents and members, with 5+ new members onboarded weekly.
- Built standardized onboarding documentation (role expectations, check-in cadence, and call scripts), , reducing onboarding time to 3 hours/week for incoming leadership.
- Supported organizational expansion into 50 U.S. states and 2 countries through targeted outreach.
